

GFL Bulk Waste Pick-up

What we pick up:

- Large and small household appliances, including refrigerators. However, for any appliances containing Freon or other coolants, (including refrigerators or air conditioners the compressors need to have been removed).
- Mattresses, furniture and carpets.
- Small trees and landscape waste from DIY projects cut and bundled into 3ft sections. Do not accept large trees.
- Fencing cut into 3ft sections.
- Small waste produced by DIY home repair (no contractor waste).
- Glass and mirrors (must be wrapped in cardboard and secured).

What we do not pick up:

- Acids and caustics
- Antifreeze
- Automotive repair waste: Includes parts and/or liquid waste from automotive, boat or motorcycle repair, tires and rimes, automobile frames, crankcase, transmissions, wheels and tires, brake fluid, degreasers and lubricants
- Batteries of any kind, including automotive batteries
- Bricks, concrete, rocks or similar materials from DIY home projects.
- Contractor waste: Uncontained sheetrock, concrete, gypsum and roofing materials, remodeling and demolition debris, dirt, bricks, rocks or concrete. These should be carried of by your contractor.
- Explosives
- Diapers and pet waste
- Excrement
- Fertilizer
- Fuels of any types, including propane tanks
- Landscape waste: includes landscape waste and trees cut by a professional contractor. Special conditions will apply for special pick-ups as the result of severe weather.
- Nuclear materials
- Oils, including automotive oil, house repair lubricants and cooking oils
- Paints and solvents
- Pesticides
- Poisons (Includes pest control, landscape and other poisonous materials)
- Pool chemicals
- Rust remover
- Sewage and septic waste
